

COMMUNITY VOLUNTARY SERVICES TENDRING

DATA PROTECTION IN THE VOLUNTARY AND COMMUNITY SECTOR

This one day course provides an introduction to the Data Protection Act as it affects voluntary organisations and explores the relationship between data protection and confidentiality. The necessary action to ensure compliance with the act is discussed including the policies that may be required. The facilitator, Paul Ticher, has over 30 years' experience in the voluntary sector, as an information worker, manager, volunteer and Board member in local and national charities. He is a widely-respected trainer and author.

Organisations that are planning to, or already have funding agreements with the PCT or other statutory partners will need to demonstrate that they have received data protection training and are complying with current legislation
